DETAILED ACTION

Applicants' amendment dated 06/26/2007 and 06/27/2006 have been received and entered. By the amendment, claims 1-8 and 10-15 are now pending in the application.

1. Claims 1-8 and 10-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses or suggests alone or in combination that a twisted-nematic liquid crystal display device comprising a combination of various elements as claimed more specifically the in-plane retardation Re_2 of the second optical compensator and the front retardation $\Delta n \cdot d$ of the liquid crystal layer satisfy the inequality

$$0.44 \cdot (\Delta n \cdot d) + 50 \leq Re_2 \leq 0.44 \cdot (\Delta n \cdot d) + 80, \text{ and}$$

wherein the slow axis of the second optical compensator defines an angle of 42 degrees to 48 degrees with respect to orientation directions of liquid crystal molecules in the black display state, the liquid crystal molecules being included in the liquid crystal layer and located near one of the two substrates, which is closer to the first optical compensator as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung Nguyen whose telephone number is 571-272-2297. The examiner can normally be reached on Tuesday-Friday.
